

Dear partners,

I hope this message finds you well.

We are excited to inform you about the launch of a new International Year One in Computing program at Solent University.

This program is designed to provide international students with an excellent foundation in Computing, preparing them for the second year of a Computing-related undergraduate degree at Solent University.

Key highlights of the program include:

- **Specialist academic support:** Tailored for international students to develop technical knowledge and academic skills.
- **Guaranteed progression:** Successful completion guarantees progression to the second year of a relevant Computing degree at Solent.
- **Small class sizes:** Students benefit from more personalized attention.
- **Industry-relevant skills:** Students will acquire the practical skills required for careers in a fast-evolving technology sector.
